

Hull and Waterline Cleaner Instructions

Protect surfaces being cleaned that could be damaged, such as polished or galvanized metal. Always test on an inconspicuous area. Do not apply to hot surfaces or allow to dry. Product will discolour some antifouling paints.

- 1. Remove large marine deposits if present.**
- 2. Apply using a sponge, soft polypropylene scourer or brush. Work in until foaming.**
- 3. Keep deposits and stains wet and foaming with the product.**
- 4. Allow product to remain on surface for 5-10 minutes then rinse off with fresh water.**
- 5. Severely stained or dirty surfaces may require second application.**
